

We finished our tax return with our CPA last week. He was so impressed with my Inventory, Sales, and other reports. Thank you, Nutshell for helping me work smarter, not harder!

I love NutShell! I have purchased many software programs and nothing worked as well as this. Thank you for saving me sooo much time and money.

Nutshell has worked so well: it worked great for my taxes this year! Also with keeping up with my additions and deletions for client connection, inventory needs, ordering and etc. You have been so patient with me as i learned to work with NutShell. I would and do recommend it for all consultants!

Priscilla Gauthier, Executive Director

Can't believe how much time I have saved using Nutshell. This is the best organizational tool for this business and so worth the small investment!
